Arlington, VA – June 8, 2006 – Tonight the House of Representatives' overwhelmingly bi-partisan vote on the video franchising bill was a vote for consumers. It is exciting to see that so many Members recognize the consumer benefits of bringing competition to the cable industry, and want to help their constituents save money on their cable bills.

TV4US thanks those Members who voted for the video franchising bill and strongly encourage their counterparts in the Senate to follow their lead
